---

Hi Katrina - attached is Revision 01 to the SMP which incorporates your comments listed below.

Let me know if you have any questions.

Thanks  
Pat

Subject: RE: Wilcox Oil RD SMP Rev00

Here are a few comments.

Section 1.0: several typos throughout the section.

Bullet, IDW transportation and disposal: it is stated that the material will be disposed at a permitted 'treatment' facility. Is this correct, or should it just be permitted disposal facility.

Section 6, first sentence: this is not a sentence and needs to be rewritten.

Section 7.4: will duties include the morning safety meetings?

Section 8.4: the official EPA file is kept by EPA in the EPA. This will need to be reworded to reflect the EA document retention process.

Section 9: please replace the first 2 sentences with the following---The project will require open house meetings, during project activities. EA will provide support to EPA.

Figure 1: please include ODEQ.

PCMP, section 2 first sentence: rewrite

PCMP, section 5: there are ARARs identified in the ROD for spill work. Please reference that these will be followed.

DMP: this should discuss the use of SCRIBE which is being used as the site database.

Hi Katrina - attached is Revision 00 of the Wilcox Oil Remedial Design Site Management Plan for your review. I have Cc'd Todd as well.

Let me know if you have any questions.

Thank you  
Pat
